Dear Ron,

Our journey with you was an amazing and wonderful time that we will never forget. We were looking for a DJ, and the groom who took ballroom dance lessons from you about ten years previously, remembered that you were also a DJ. After finding out that you had won awards of distinction for your work as a DJ, we met with you to discuss your availability and plans for being the DJ at our reception. In addition to making us feel very much at ease, we were impressed by your level of detail and professionalism.

We felt completely at ease with the fact that you would be coordinating the entire reception with the staff at the reception hall, and the photographer. You made thoughtful suggestions that we incorporated into our agenda that allowed for our guests to be actively involved while reception hall staff cleared the tables. The groom was impressed by the fact that you had viable solutions for potential issues at the reception which demonstrated the benefit of hiring a DJ with extensive experience.

You also coordinated with our Master of Ceremonies so that each of you knew their respective roles and responsibilities. Prior to our First Dance, you had games that our guests participated in with us that resulted in lots of laughs and fun.

Fortunately we asked you to choreograph and teach us our First Dance. This allowed you to have the photographer positioned at strategic locations so that key moves during our routine would be captured. We received several compliments during the reception from our guests about how great we looked performing our first dance.

We had so much fun learning our First Dance with you as our instructor. You made us feel very relaxed as we progressed in learning basic to advanced steps in our routine during the ten weeks. An added bonus for us was the fact that you arranged to come to the reception hall a couple of weeks prior to our wedding so that we could practice our first dance there. This allowed us to feel comfortable and oriented during our first dance at our reception.

...2...

While guests were eating you played soft background music that you knew we liked so that our guests could easily converse with each other. Later you played a lot of our guests' requests so that they got to dance to the music of their choice.

You also provided additional lighting that enhanced the ambience and atmosphere of the event.

In summary, you provided a total package that included DJ services, lighting, games that people participated in, and coordination with the Master of Ceremonies, photographer, and reception hall staff.

Yes - we got everything we wanted from you as a DJ - a reception that was well organized, classy, elegant, and fun. Also, we were extremely pleased with your choreography and instruction of our First Dance.

Ron, you deserve a HUGE Thank You for all your work, expertise, and professionalism for making our reception and First Dance an outstanding success.

A handwritten signature in cursive script that reads "Jeannie & Ken". The signature is fluid and elegant, with the names connected together.
